EXPERIENCE

2016 • Ongoing Baja Tech Space, Waterford, SD

Title: Front End Developer / CMS Manager / Project Manager

- I am responsible for design and creation of Static Sites
- I develop using CMS and customizing themes for WordPress, Weebly, Wix
- I research and implement plugins that work well with the theme - I also provide clients with the best options.

2020 • Current BudBreak Creative, Healdsburg CA

Title: Front End Developer / CMS Manager / Project Manager

- Responsible for implementation of Agile and implementing project management tools.
- Managing tasks and team members to complete projects at hand and ultimately deliver products to clients.
- Split my time stepping in for web development when needed, mostly in JS, PHP and ASP.
- Develop using CMS, mostly WordPress and Umbraco.
- Deliver projects on schedule and within budget.
- Provide weekly reporting and schedule upcoming projects.
- Provide training on new software usage, and handling user experience.

2019 • 2020 Now Serving San Diego, CA

Title: Front End Developer / Project Manager

- Responsible for implementation of Agile.
- Managed weekly sprints, and testing of products for ultimate release.
- Assured daily, open and transparent communication with the QA team.
- Managed mobile app project from Discovery, planning, execution, and closure.

- Met all role expectations, mindful of course, of time and budget allocated to the project.
- Responsible for managing Dev team for development and release of mobile app project.
- Was praised for my high level of communication with the Dev team, partners and stakeholders.
- Maintained a strong sense of urgency in completing tasks, and communicated changes effectively with the Dev team.

2018 • 2020 West Wines Healdsburg, CA
